HOTEL INDUSTRY

HYPER CONCENTRATED BASES

CALIDAD INTEGRAL, NUESTRO OBJETIVO DESDE 1979

Our offer, in the hotel industry sector, is increased with new compounds Hyper-Concentrated.

It is a family of **HYPER-CONCENTRATED BASES** destined to the manufacture of multipurpose detergents of high efficiency. Everything needed to make 5 liters of concentrate in a 0.5 liter bottle of hyper-concentrate. When diluted in water are obtained quality multi-purpose concentrates at a very competitive price.

EASY, COMFORTABLE, LOGIC

5 liters of
CONCENTRATED

Just adding water
turns into...

1/2 liter of
BASE HÍPER-CONCENTRADA

LOWER ENVIRONMENTAL IMPACT

Reduce manufacturing, packaging, energy consumption, transport to customers, recycling of packaging, etc.

LOWER COST.

Reduce between 40 and 70% of the chemical cost of the cleaning process.

BETTER STOCK CONTROL.

Several end products are extracted from each base.

SAVING OF STORAGE SPACE.

10 or 20 times less store.

TAYLORED PRODUCT.

Higher cost adjustment. The base can be mixed with more or less water to suit your application.

12x0,5 = 12x5
